

Saeed Mousavi

Master : Mechatronics At K. N. Toosi University

Personal Information

Age: 32 Years
Gender: Male
Location Province: Tehran
Location City: Tehran
Marital Status: Single
Military Service Status: Exempted

Contact Details

Mobile: 09122053808
Email: saeedmoucavi@gmail.com
Address: Jannat Abad
LinkedIn: [Page link](#)

Exprience & Salary

Work Experience: 11 Years
Salary Expectation: 60 - 80 Million Tomans

Work Experience

- Mechanical Engineer**

MAAD ARIA VISTA Cc.

July 2025 until now (1 year and 1 month)

Iran Tehran
- Mechanical Engineer**

Talash.B.S.R

November 2024 until July 2025 (8 months)

Iran Tehran
- Research Assistant**

ARAS Robotics Laboratory

September 2021 until November 2024 (3 years and 2 months)

Iran Tehran

Designed and modeled mechanical components (using Solidworks), controlled and optimized a continuum robot for minimally invasive surgical applications.
Designed and implemented fuzzy logic and intelligent control systems for cable-driven robotic manipulators.
Developed and implemented signal processing algorithms for EOG sensors to analyze human consciousness levels
- Computer Parts Repairman**

Pasargad

June 2015 until August 2021 (6 years and 2 months)

Iran Tehran

Education

- Master: Mechatronics**

K. N. Toosi University

2021 - 2024
- Bachelor: Mechanical engineering**

K. N. Toosi University

2014 - 2019

Training Courses

-  **Solidworks**

Course Duration: 30 Hours

maktabkhooneh

2019 (No Certificate)
-  **matlab programming**

Course Duration: 44 Hours

maktabkhooneh

2021 (No Certificate)

Languages

English | Intermediate

Software

MATLAB | Advanced Catia | Advanced Solidworks | Advanced
Python | Advanced AutoCad | Intermediate

Additional Skills

Mechanical design and manufacturing AI and Machine Learning Image Processing

Papers & Books

Classifying Human Spatial Navigation Anxiety Using Electrooculography Signals and Machine Learning Techniques 2025

About Me

As a mechanical engineer, I focus on the design and development of mechanical mechanisms and manufacturing related equipment. My professional experience includes designing mechanical parts and machines, preparing technical drawings for fabrication, and supervising and participating in all stages of the production process. My research background includes work in modeling mechanisms for various types of robots, motion path planning, and control of robotic systems. I am proficient in design software such as Catia, SolidWorks, and AutoCAD, as well as the Python programming language, machine learning algorithms, image processing, and Matlab.
